

## IMPACT REPORT

### January 2020 – September 2020

#### A Story of Transformational Change

Over the last nine months, FPA India's programmes to get girls back to school have impacted many of the young people positively.

With it's participation in the Tata Mumbai Marathon 2020, FPA India was looking to impact the most important segment of the population - adolescents and young adults. The theme was #Let's Get Girls Back To School. We implemented a comprehensive programme which included life skills training through the Adolescent Education Programme, distribution of sanitary napkins & providing health services pre and post covid-19 pandemic.

## The Building Blocks of our Programme

## HOW WE IMPACTED THEIR LIVES

*Through our programmes that were supported by so many individuals & organizations, we ensured that:*

- 1 Thousands of girls could access menstrual hygiene products during periods and life skills education during lockdown through online sessions
- 2 Thousands of girls were able to do better at schools after receiving care for anaemia
- 3 More than 9 lakhs people including females & males were screened for covid-19
